ENGLAND

MASON CASH

EST.

1800

200 Years in the baking.

Mason Cash originated in a pottery operating at Church Gresley in the heart of the English ceramic industry in 1800. The pottery became world renowned for producing kitchen items made from their distinct 'white and cane' glazed earthenware.

In 1901 they designed and manufactured the very first iconic Mason Cash mixing bowl. The bowl's design has endured the test of time and has become something of a design classic. In fact, the design has barely altered since then, which is why the brand is still renowned for its innovative, classic kitchenware today.

MIXING BOWLS AND BATTER BOWLS

Made from earthenware, the mixing bowl is light enough to hold in one arm while mixing, but sturdy enough when using on the counter top, making it the perfect bowl for home or professional bakers.
